This Years Achievements and Updates

Tim Calhoon, CCC Technology Center

eTranscript Legislation

AB1056 (Fong) – Requires all CCC's to convert to electronic transcripts.

*CCCCO has received one time funding of **$500,000** from the legislature to disburse*

Mini Grants

$5000.^{00}$ to each college to do any of the following…

- ☑ Send and receive transcripts
- ☑ Respond to electronic requests for transcripts
- ☑ Import transcripts into campus systems (SIS, Degree Audit, Planner, etc.)

One college may apply for multiple grants

A district may apply for multiple colleges

You may apply even if you've had a previous mini grant

Mini Grants

97 colleges applied

So far we've paid out $110,000 to 15 Colleges

Work must be completed by 6/30/2013

Based on surveys we are expecting to pay out 40 more mini-grants totaling $200,000

There's plenty left…go for it! ☺

California Transcript Data Standard

To qualify for a mini grant colleges must use

- *Supports CSU-GE, CSU-IGETC, UC-IGETC, and SB1440 data* elements via…
  - CCC ASCII - *the standard for sending transcripts via eTranscript California incorporates all elements and is the simplest method.*
  - *PESC XML – CA elements are supported via an approved UDE (User Defined Extension)*
  - *EDI – CA elements are formatted in specific segments*

SB1440 Data Elements

Went live in July 2012

Identifies AA or AS for Transfer

Degree completeion date or

Anticipated completion data

MIS CO-Unique code (CCC approved program code)

Parchment

Credentials

eTransciptCA Accomplishments

- Implemented SB1440 data elements
- Enhanced support for 4 year colleges to send transcripts
- XML via SPEEDE server is in user testing
  - Expecting release Summer 2013

83 Member Institutions

PESC EDexchange

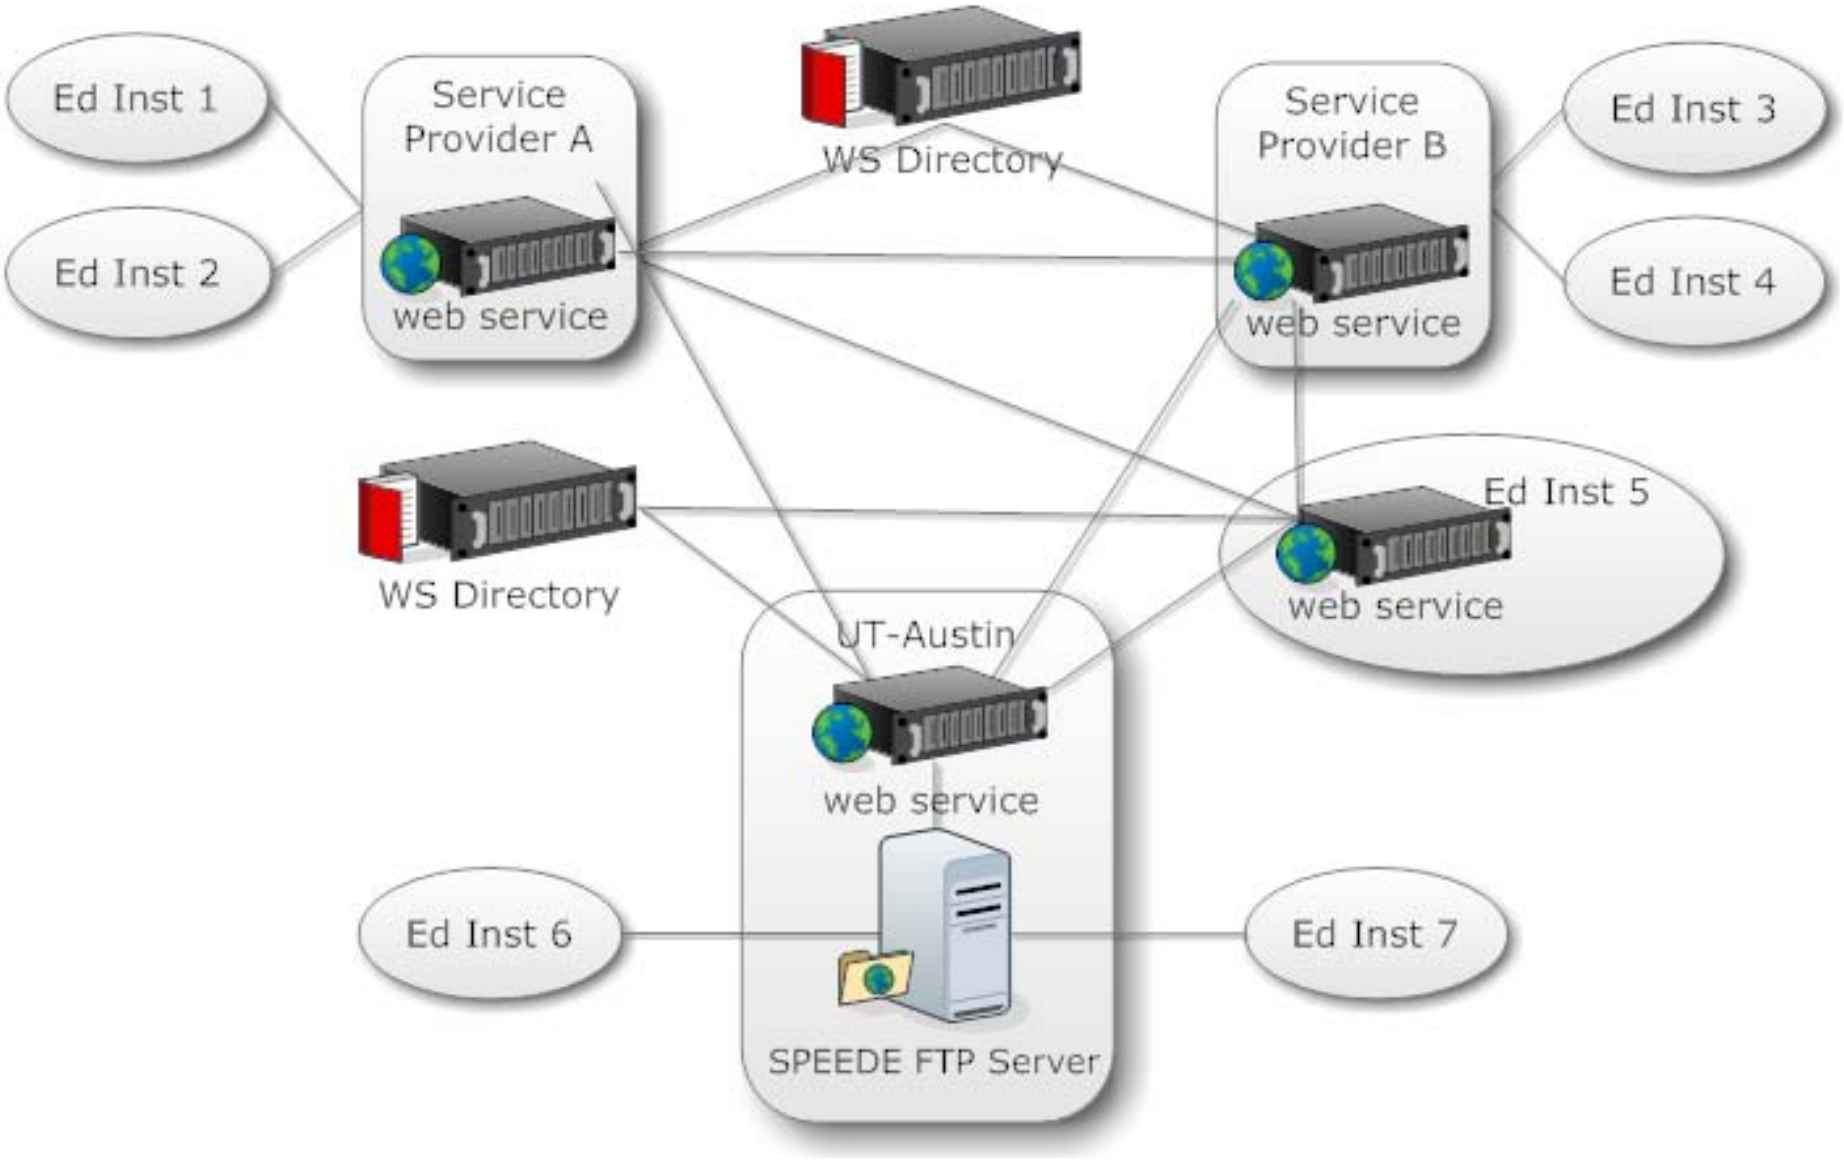
A web services network to directly exchange educational data

Eliminate a Single Point of Failure

Eliminate Third party storage of PII data (security)

Facilitate High-Speed Transmission

CaliforniaElectronicTranscript Workshop



PESC EDexchange

Supported by 30+ vendors & institutions

Have demonstrated exchange between Parchment and Univ. British Columbia

Currently working out registry service details

Next step – Open Source Web Services
