Applying for Grants and Fulfilling Requirements

Lenny Robison – Project Manager, CCC Technology Center

California Community Colleges Chancellor's Office

Grant 13-084 California Community College **Education Planning Initiative**, supports the expansion of standardized electronic transcripts across California.

Electronic transcripts have been identified as a critical component of an education planning system, and **supporting the implementation of electronic transcripts at all community colleges is a goal of the Education Planning Initiative.**

Mini Grant Background

eTranscript California is an existing project funded by the Chancellor's Office through the CCC Technology Center grant to Butte CCD.

The project is governed by the eTranscript CA Steering Committee, which defined the standards and requirements to implement a system of electronic transcripts across all of the educational segments in California.

A full and complete expansion of electronic transcript capabilities within the California Community Colleges and throughout the educational system will be a primary focus for the Education Planning initiative.

Who should apply?

- Application should be made by Admissions & Records Director, VP, or similar college leadership
- Districts may apply for multiple colleges
- Each college within a district may have up to 5 grants (one for each option)
- Colleges who have participated in a prior mini grant program are eligible

Important Dates

- No grant applications will be accepted after June 30, 2015
- Colleges must complete their grant requirements between July 1, 2014 - January 31, 2016
- Retroactive applications are accepted

California Electronic Transcript Standard

The California Community Colleges Chancellor's Office, through the eTranscript California project, has established a California Electronic Transcript Standard that fully supports the intent of the California Community College Education Planning Initiative by establishing a standard for the transmission of IGETC certification, General Education certification, Associate Degree for Transfer (SB-1440) data elements, and District-wide Transcript delivery.

Mini Grant Requirements

To qualify for an implementation mini grant,

- Each college must be able to transmit and receive electronic transcripts in the California Electronic Transcript Standard format.
- The funding is available for colleges implementing these standards within eTranscript California.
- A college may employ a secondary transcript service provider in addition to eTranscript California. Funding is only available for eTranscript California implementations.

Funding Limit

- Total funding available for all combined components of this mini-grant is Six-Hundred Thousand dollars ($600,000).
- It is first come, first served for grant applications and implementation completion.
- Time is of the essence.

Verification of Completion

The Admissions & Records Director, or similar administrator, will send notification that they have the ability to provide the items covered in this option when sending electronic transcripts through eTranscript California.

The eTranscript California Steering Committee will then monitor the college's activity and recommendation for payment of the mini grant.

Grant Payment Schedule

Entire payment will be made upon a satisfactory performance determination

Satisfactory performance is determined by the college including data as defined in Option

The college must be providing the specified data within their electronic transcripts delivered through eTranscript California in the "Production" (Live) environment.
